LOCAL.
# NATIONAL.
GLOBAL.

The Broadcast News Agency, Redefined.

With FSN LIVE, your network can step into the future of broadcast news today.
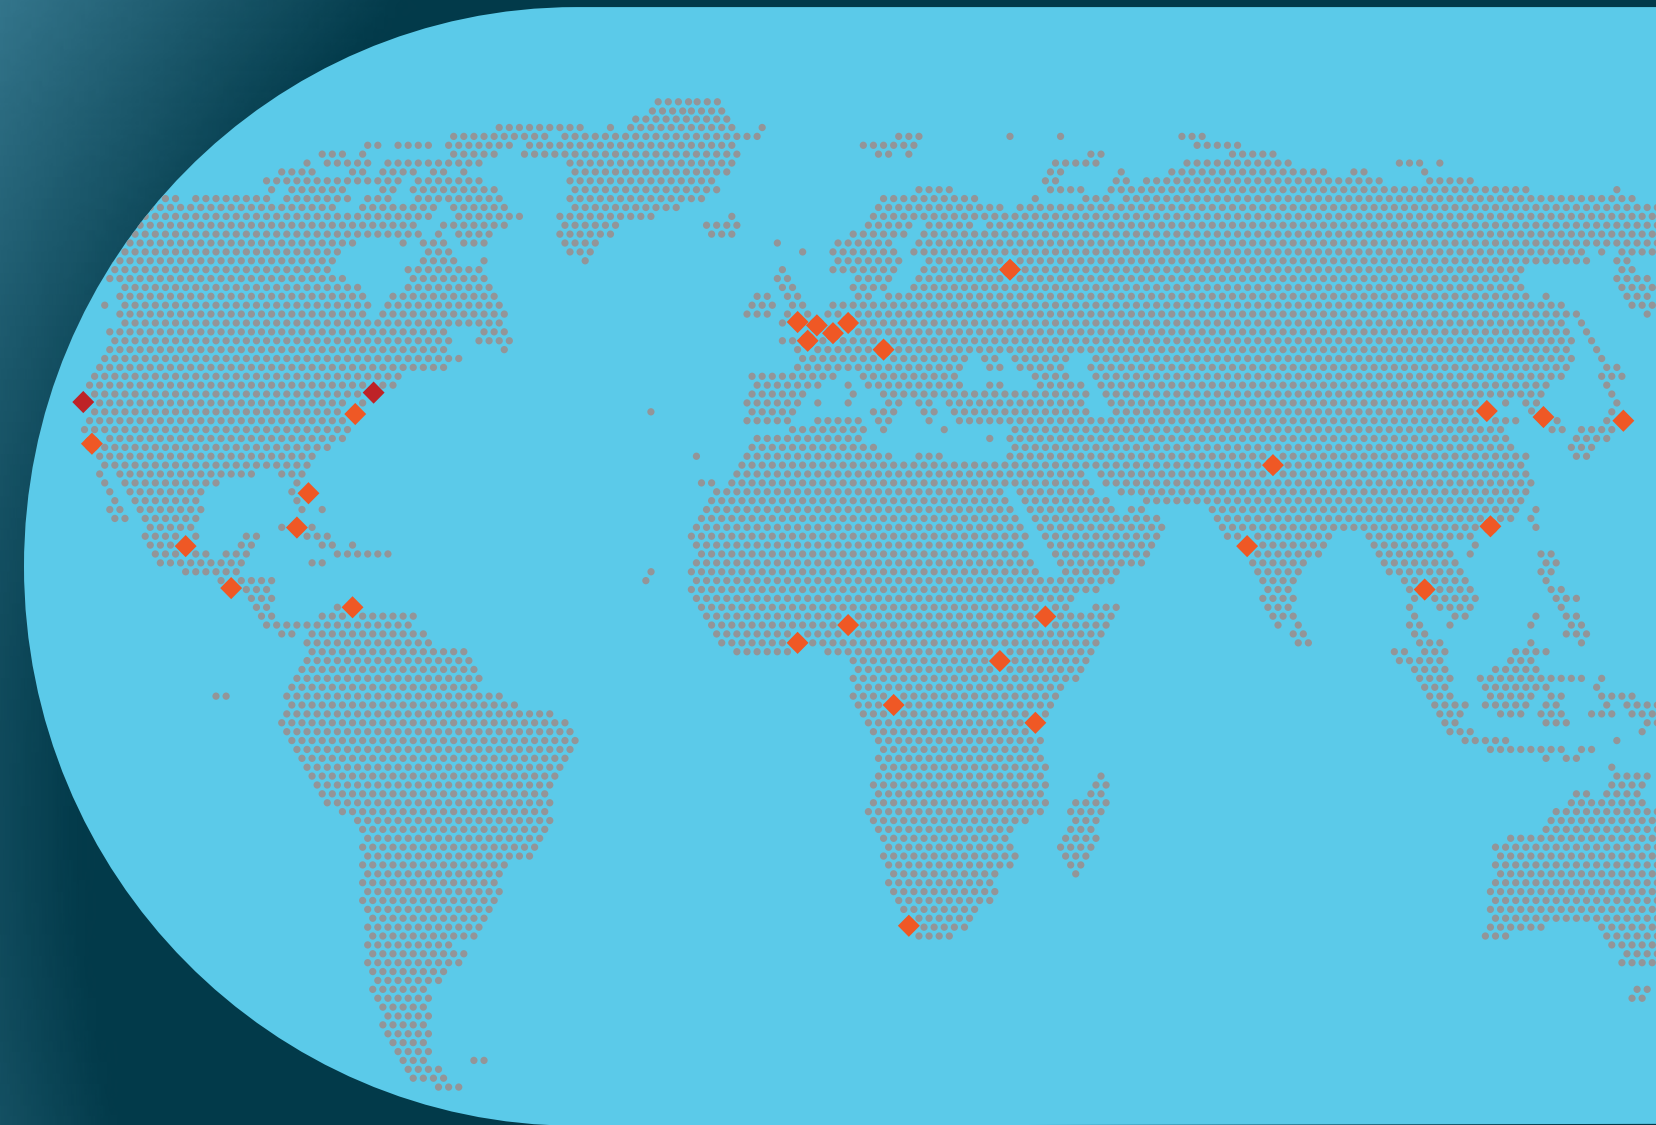

An FSN LIVE subscription gives you **unprecedented live competitive advantage and reliable connectivity** from essentially anywhere in the world. It's a cost-effective service for ever-shrinking newsroom budgets, and allows you to stop throwing money away on bulky backpacks and associated hardware.
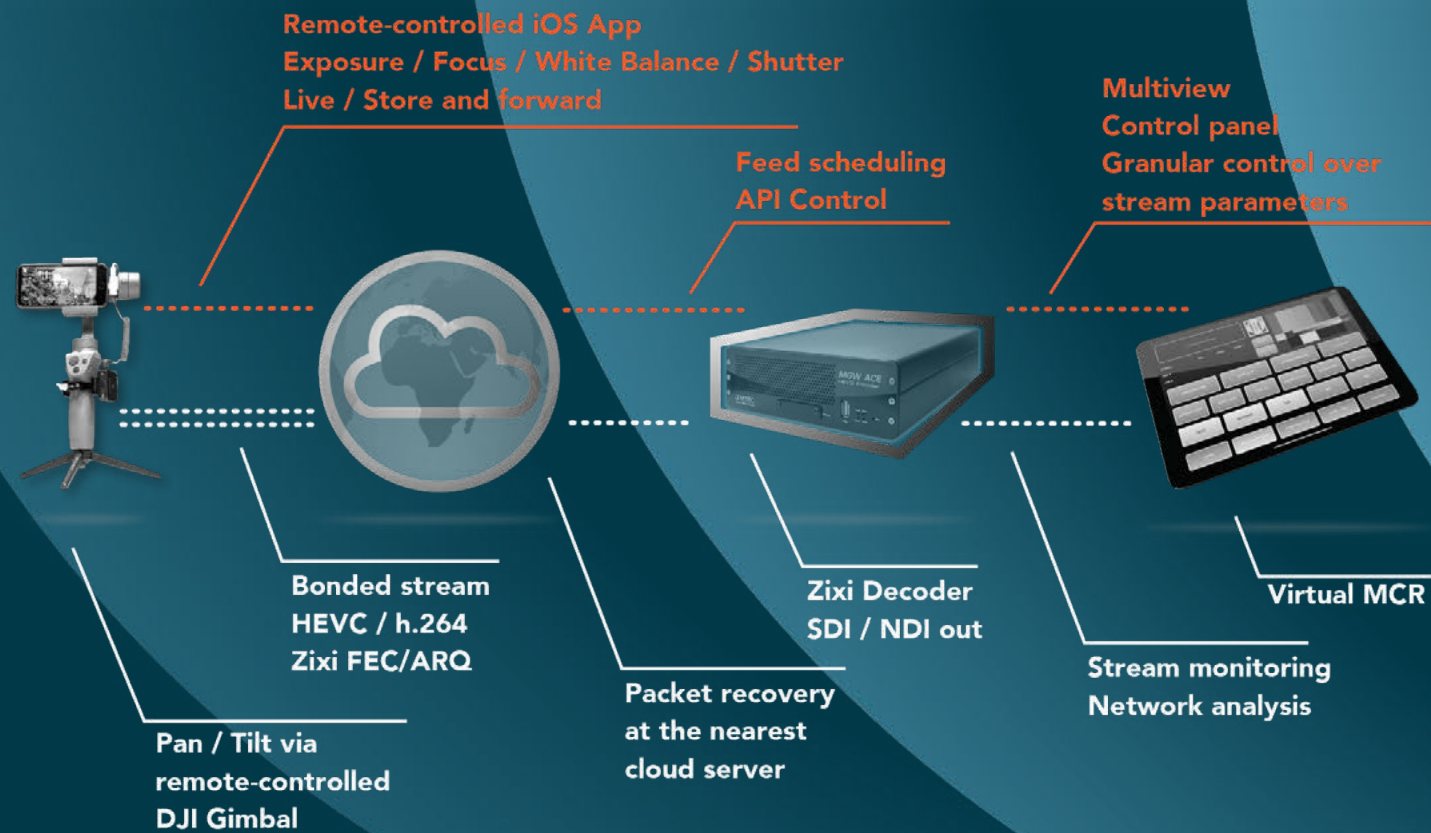

Instead, use **FSN LIVE's unique, future-proofed solution** to expand your broadcast's live inputs and enjoy **unsurpassed, monitored technical quality** from anywhere in your city, your nation and your world.

Becoming an FSN LIVE subscriber and creating your customized FSN LIVE hub will revolutionize your newscast and dramatically expand your domestic and global coverage. It will significantly broaden and diversify your live capabilities, whether it's **local, regional, national or international.**

FSN LIVE is owned, operated and used by Feature Story News, the world's fastest-growing broadcast news agency. Designed by our award-winning cameramen and engineers, the **system is a unique, cost-effective and future-proofed technological solution that can expand your global reach.**

UNIQUE FEATURES

FSN LIVE APP:
The app turns your iPhone in an HD, remote-controlled broadcast camera. Your MCR engineers can take full control of the focus, shutter, zoom, latency and, when mounted on a gimbal, pan and tilt. The store-and-forward feature allows for easy as-live recording and sending.

VIRTUAL MCR:
Turns your iPad into a virtual MCR and allows universal remote control of your video journalists' phones. With bandwidth-monitoring, high-quality output, low latency signal, multiviewer and one-touch output selection.

CELLULAR BONDING:
Zixi FEC + ARQ packet recovery delivers uninterrupted transmission, further decreasing latency by minimizing packet loss and recovery time. Adaptive bitrate and framerate helps when the bandwidth is a challenge. A global array of cloud-based servers improves latency and signal stability.

WORLDWIDE STUDIOS:
Access to FSN's ever-growing network of studios, live positions and bureaus across the world. Go live with correspondents, guests, analysts or protagonists from the world's major cities.
